DECANTERS

DECANTERS

A variety of designs to suit many tastes are featured in our collection of handmade decanters. Except the Ball and Gustav, all have stoppers individually hand-ground to uniquely match the body of the piece. Most of our decanters are now presented in gift boxes making them ideal gifts for Weddings and other special occasions.

SAVOY & OTIS

These pieces coordinate with other collections designed in black and white glass – see page 20 – from which exciting black and white tabletop displays may be created.

BAR & LEON

The Bar ice and champagne buckets have soft hand-finished rims with integral handles which are only possible with handmade production. The clean design of the Leon handmade ice and champagne buckets is completed with a hand-ground bevel-cut edge and useful hand-applied handles.

JUGS

All LSA jugs are mouthblown and all except the Ono, Milo and Aldo have handles applied by hand. With many sizes and designs to choose from, it is easy to find a jug to suit any occasion.
